TONNAGE

	TONNAGE
2013	82.900.000
2014	89.200.000
2015	86.400.000
2016	100.677.000
2017	101.613.000
2018	102.908.000

ECTA Responsible Care: Results 2018 Incident Totals

Incidents Totals

ECTA Responsible Care: Results 2018 – Injury/lost time Incidents

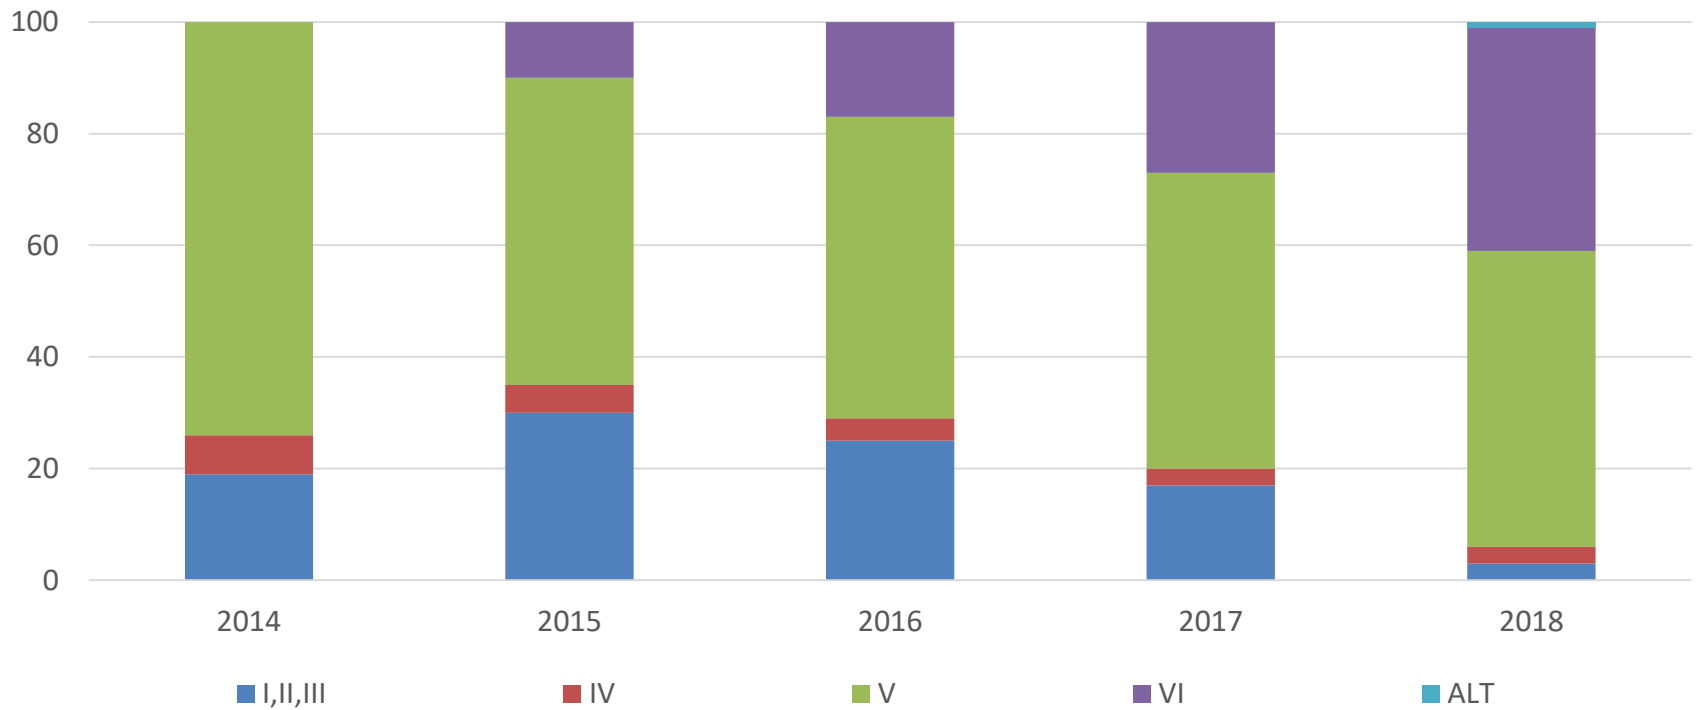

Injury Incidents

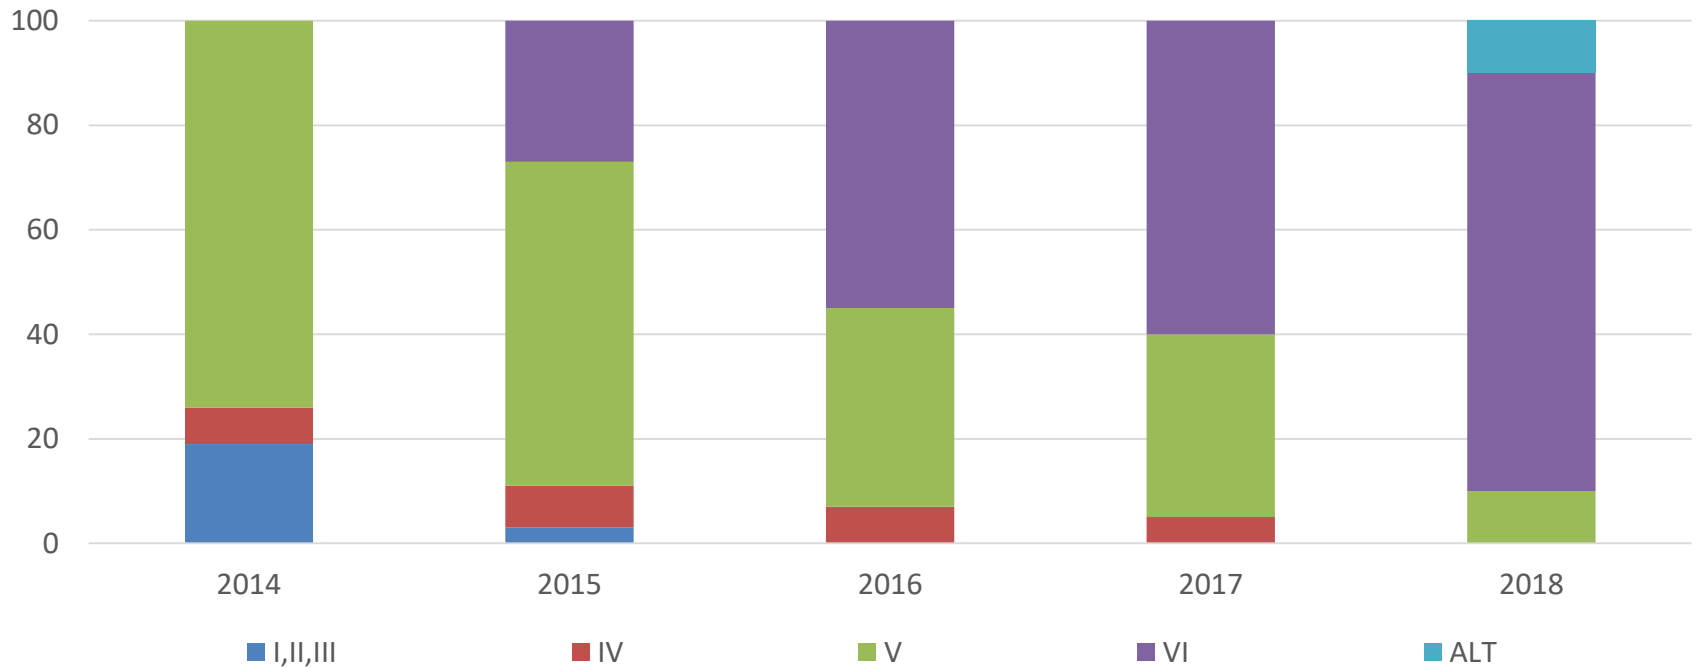

RC KPI's 2014 – 2018 Truck Types

Company A

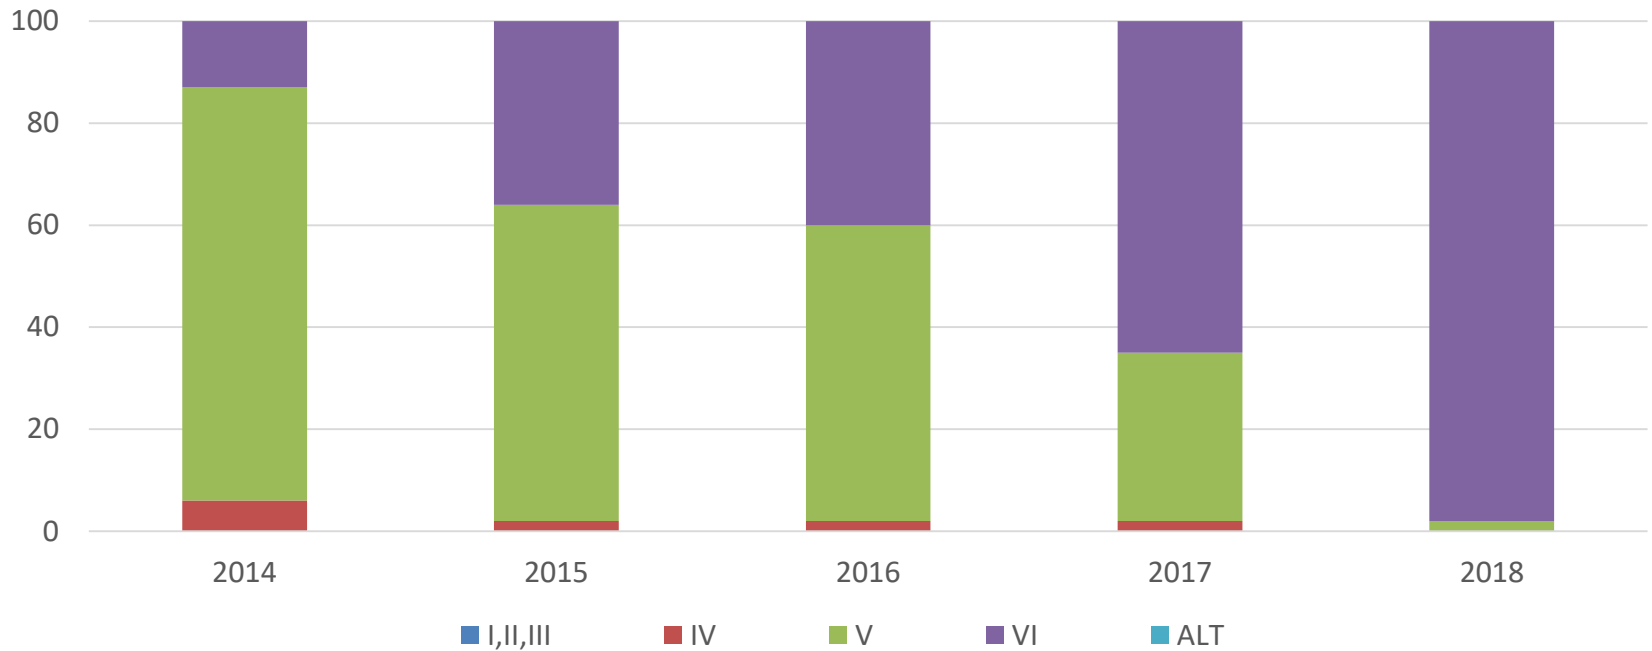

RC KPI's 2014 – 2018 Truck Types

Company B

RC KPI's 2014 – 2018 Truck Types

Company C

ECTA Responsible Care: But 10 Years of changes in our world

- Plastic Granules and Plastic Micro fibres.
- Fine dust emissions more detailed
- In 2050: Zero Logistic Emissions
Zero Logistic Injury Incidents
Zero Logistic Paper Use
- And many others

ECTA Responsible Care: The future (I)

- Continued Importance of ECTA RC. But the focus is getting sharper in specific areas.
- ECTA Responsible Care needs continued fine-tuning with the Chemical Industry.

Hence: ECTA Responsible Care V2.0

ECTA Responsible Care: The future (II)

Let us link up with the views of the
Chemical Industry,

presented to you by Dr. Giulia Casasole,
Cefic Responsible Care Manager

ECTA Responsible Care: The future is also yours

ECTA Responsible Care V2.0

Some of our ideas:

- SQAS 2019 RC templates revision (done)
- Name specific targets to reach the objectives of the 3 ZERO's and implement them in our KPI reporting

And your ideas?

Nb. ECTA will never take on the roles that should be in the hands of individual members

ECTA Responsible Care: Finalization process ECTA RC v2.0

- Basic draft by the ECTA T&RC team
- Add input from the RC workshop
- Add input from Cefic's RC Revitalization Project
- Add input from the new SQAS RC Templates
- Add input from the ECTA Board
- Present final ECTA RC v2.0 at the ECTA Annual Meeting in Dusseldorf in Nov. 2019
