ECTA Zero Emission Knowledge Platform Webinar

“How to prepare as carrier for the European Green Deal directive” Learn about their experiences, learnings and raise questions. The Webinar looks at the Status quo and background on the Corporate Sustainability Reporting Directive Reporting Standards.

21.06.2023 09:30-10:30am JOIN FOR FREE

Presented by Talke and GCA

ECTA will host its second ECTA Zero Emission Knowledge Platform Webinar and the participation will be for free. The first webinar in march was of huge success and about 100 participants joined the free session on “how to implement a CO2 emission calculation tool”.

The next Webinar will focus on the European Green Deal and what these regulations mean for Logistics Service Providers. Two of our ECTA Members will share their experiences on the implementation of the Green Deal to their daily workflows.

We think the exchange of knowledge to improve our total industry should always be for free. With the same strategy we host our ECTA Zero Emission Knowledge Platform, which provides documents, references and relevant information regarding the goal of a Zero Emissions Transport Industry.

The aim is to provide and exchange knowledge relevant for Logistic Companies to work towards the emissions targets of 2030 and 2050.

Link to Register: ECTA ZEKP Webinar "How to prepare as carrier for the European Green Deal directive" 21.06.2023 | ECTA - European Chemical Transport Association
<https://ecta.com/product/ecta-zekp-webinar-how-to-prepare-for-european-green-deal-21-06-2023/>

This Webinar will be the second one in a row of Webinars about the Zero Emission Logistics Topic. All Webinars are presented by ECTA Members to share their experience, learnings and knowledge.
