## ECTA DIGITALIZATION WEBINAR

“How to simplify the truck, equipment and truck driver check-in process through standardized data exchange”

16.01.2024 09:30-10:30am **JOIN FOR FREE**

Presented by Fockedeey, Vervaeke, Talke, **BASF, ECLIC** and **ECTA**

### Agenda:

Using common data standards are an industry best practice and important enabler to digitally exchange information and to collaborate with all stakeholders across an “end-to-end” multimodal transport and logistics networks.

How should carriers deal with the increasing number of web portals to pre-announce their transports?

Is sharing equipment master data a blessing or rather a problem? What are the pitfalls?

Is **GDPR** a bottleneck to share truck driver data? How to overcome?

This webinar is for free!

**ECTA** thinks the exchange of knowledge to improve our chemical transport and logistics processes should always be free of charge.

Link to Register: **ECTA Digitalization Webinar "How to simplify the truck, equipment and truck driver check-in process through standardized data exchange" 16.01.2024 | ECTA - European Chemical Transport Association**

This Webinar is the third in a row of Webinars related to digitalization of the chemical logistics industry. All Webinars are presented by **ECTA** Members to share their experience, learnings and knowledge.
