

New ECTA Governance structure

Andreas Zink – ECTA Managing Director

Peter Devos – ECTA Digitalisation Director

Steve Rowland – ECTA Responsible Care Director

Estelle Zink – ECTA Administration and Communication Manager

This new ECTA team composition demands also a change in the ECTA Executive Committee from the fact that the former ECTA President, Andreas Zink, has left LKW Walter Internationale Transportorganisation AG and is therefore no longer entitled to represent the company in the ECTA Board and ECTA Executive Committee .

Samuel Alonso was elected at the last 2025 Ordinary General Meeting held in Dusseldorf as new Board Member representing LKW Walter in the ECTA Board.

Furthermore, the ECTA Executive Committee was adapted to its new goals and ambitions at the last Board Meeting on Nov 20th 2025.

The new ECTA Executive Committee as of Jan 1st 2026

Joep Aerts (Den Hartogh) – ECTA President

Alberto Marenzana (MRZ Group) – ECTA Treasurer

David Goekoop (Hoyer Group) – ECTA Vice President Digitalization

Konstantin Kubenz (Kube & Kubenz) – ECTA Vice President Sustainability

We hereby wish the new ECTA team and Executive committee a lot of success in their new roles. The chemical logistics sector needs a strong voice and together with the ECTA board and its members, ECTA can further grow to reach its missions in safety, sustainability, digitalization, gender balance and EU regulatory compliance.
